Messes. Epirors: The object of this communication is to elicit information. Blount county subscribed \$120,000 in aid of the Knoxville and Charleston Railroad, and paid the same in her coupon bonds, running thirty years and bearing 6 percent. Interest. Had these teen judiciously and honestly applied to the purpose for which they were intended, the people of the county would have realized, in the enhanced value of their lands and in the increased facilities for trade and travel, pecuniary benefit corresponding with the heavy burthen which they had imposed upon themselves by the Issuance of said bonds. But it is said that this has not been done; that the officers of the Knoxville and Charleston Railroad Company sold \$30,000 of Blount county bonds to Joseph A. Mabry, on a credit, and without any security; that subsequently he executed a note to the Company for the purchase money, with Geo. W. Mabry as security; that said note thus executed was sued on in the Circuit Court for Knox county; and that a few days since the Receiver, Presiin the Circuit Court for Knox county; and that a few days since the Receiver, Presi-dent and Directors of the Company, by and with the advice of Judge McKinney, one of the State's Commissioners for the sale of delinquent railroads, accepted 60 acres of land, worth only about \$3,000, in full liquidation of said note, which amounted at the time to \$21,255.

Now this rumor may or may not be true. If true, the people desire to know it, and to know by whom and under what authority the contract was concluded. If not true, these inquiries will enable the not true, these inquiries will enable the parties implicated to give it an authoritative denial. If true, a gross wrong has been done the public, and there is fault somewhere. The officers entrusted with the business of the company, had no right to invest the bonds issued by Blount county to aid in building a railroad, in lands, however valuable. But if they had, it is bad trading to give \$30,000 worth of Blount county bonds for \$3,000 worth of poor lands. In this transaction the public loss is General Mabry's gain. The contracts, terminating in the result stated, were all made while he was a director of the company; and it is due to the parties as well as to the public that a full expose should be made, showing what has been done and who did it.

It is also stated that the parties holding

done and who did it.

It is also stated that the parties holding the proxies of Blount and Knox counties, with a full knowledge of the foregoing fact, as far as they had then transpired, voted for General Mabry for Director of said Company. Is this true? If so, who were the proxies representing the counties and what apology or excuse have they for their votes? The people of Blount and Knox counties are forbearing of censure and just in their conclusions, and they and just in their conclusions, and they will wait explanation before passing judgment on the matter heretofore referr-

One other inquiry, Messrs. Editors: Has a receiver appointed by the Governor for the purpose of preserving the property of a delinquent railroad company, the legal right to waive upon it and convert \$21,-255 worth of notes into \$3,000 of unproductive real estate? And if he should do so, may he and his securities not be held liable for the loss?

"STATIONERY" AND "FUEL" FOR CON-GRESSMEN.—The late book, "Domestic Life of Thomas Jefferson," relates an inci-dent, which shows that at an early day public servants began to bleed the treas-ury. During the session of the first Con-tinental Congress, Delegate Harrison, of Virginia, desiring to "stimulate," went with a friend to a certain place where sup-plies were furnished Congress, and ordered plies were furnished Congress, and ordered two glasses of brandy and water. The man in charge hesitated, and replied that li-quors were not included in the supplies

"Why, said Harisson, "what is it, then, that I see the New England members come here and drink?"

"Molasses and water, which they have charge as 'stationery," was the reply. "Then give me the brandy and water," said Harrison, "and charge it as fuel."

The fuel was furnished and Harrison and his friend retired.

PAIN KILLER was the First and is the Only Permanent Pain Reliever.

Since the PAIN KILLER was first introduced, and met with such unsurpassed sale, many Limiments, Pan-aceas and other remedies have been offered to the unb-lid, but not one of them has ever attained the truly, ENVIABLE STANDING of the PAIN KILLER.

WHY IS THIS SO !

It is because DANIS' PAIN KILLER is what it claims to be—a Reliever of Pain.

Its Merits are Unsurpassed.

If you are suffering from Internal Pain, twenty or thirty drops in a little water will almost instantly cure you. There is nothing to equal it. In a few moments it cures Colic, Cramp, Spasms, Heart-Burn, Diarrhea, Dysentery, Flux, Wind in the Bowels, Sour Stomach, Dyspepsia, Sick Headache.

In sections of the country where FEVER AND AGUE

Prevail, there is no reme'v held in greater esteem. Every housekeeper should keep it at hand, to apply it on the first attack of any Pain. It will give satisfactory relief, and save hours of sufferin.

Do not trifle with yourselves by testing untried remedies. Be sure you call for and set the genuine PAIN KILLER, as many worthless nostrums are attempted to be sold on the great reputation of this valuable medicine.

Messus. J. N. Harris & Co., Cincinnati, Ohio:
Gentleman—I heard one of my customers speak in such high terms of Allen's Lung Baisam to-day, that I thought I would write you the substance of his statement: He says his mother, who is now sixty years of age, has suffered with censumption for several years, and has been under the care of all our best physicians, but never received any permanent benefit; then she resorted to most every kind of Cough and Lung Balsam that could be produced for her, but all to no avail. She still grew worse, until she was confined to her bed; and when she was seized with a paroxysm of coughing she would lose the power of respiration, and they were compelled to resort to various means to restore breathing; and while she coughed so hard she could not expectorate anything, and the family and friends had given up all hopes of her recovery. Her son unticed the advertisement of Allen's Lung Balsam in the Christian Advocate, and they thought they would procure and try it. They commen ed giving he the Balsam at 5 o clock P. M., as directed, a doze very hour until midnight; then she took another spell of coughing, and expectorated a mouthfull of dark yellow matter, which was romething she had not been able to do for some time. They continued to give her the Balsam until morning, and then she began to expectorate freely, and since that time she had expectorated three pints of mucas matter, which gave her immediate relief, and since that time she has continued to improve. She now sits up all day, and can walk about the house and take considerable out-door exercic. Her son booght more of the Balsam to-day, and he is re ommending it very highly to every one.

Yours, respectfully. A. C. JOHNSON, Druggist.

That Scrofuls, by whatever name designated, is the result of deposits from the blood, induced or caused by chronic inflammation. That those deposits take place when the blood is poor, weak, waters, and incapable of holding in solution its proper constinuents, or from the presence of seme virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents, given in midicines, and which enters largely in the common advertised Sarsaparillas, not absorbed or changed from their natural condition.

Tumor of Twelve Years' Growth Cured by Radway's Resolvent.

Brunty's Resolvent.

Dr. Radway-I have had Ovarian Tunor in the ovaries and bowels. All the dectors said "there was no help for it." I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it, but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, one hox of Radways Fills, and used two bottles of your Ready Relief; saw there is not a sign of a Tumor to be seen or felt, and I feel better, smarter and happier than I have for twelve years. The worst Tunor was in the left side of the lowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose. *
